You do not necessarily need to be intelligent to understand Maths. All you need is time to practise.

I love teaching maths, the best thing is when someone finally 'gets' something they have struggled with!

I am Norwich City fan and have season tickets in the South Stand. My 2 year old son is obsessed with anything Norwich and already been to 2 games. I play the drums and listen to heavy metal mostly. Before my son arrived, my wife and I were regulars at Download and gigs around the country.

I'm passionate about English and believe it to be the key to success in all other subjects! I've lived in Norwich for just over 4 years and love the business of the city, however you cannot beat the beautiful coastal towns like Cromer.

In my spare time I love to watch rugby (I used to play at a senior level), spending time at the coast and spending time renovating my house.

Laura Fisher

I love inspiring students to feel more confident with their reading and English skills. I'm originally from Suffolk but live in Norwich. I like to go to the gym or spend time with my 3 year old daughter.
